

Material Characterization Services

for Absorbable Polymers & Medical Devices

Bezwada Biomedical is pleased to offer a range of analytical services for material characterization of absorbable polymers and medical devices. Our services include:

- Absorbable Polymer Identification and Analysis
- Impurity Analysis
- Shelf Life Stability and Biodegradation
- Expert Witness Services and Litigation Support
- Consulting Services
- Failure analysis of Medical Devices
- Patent Infringement and Intellectual Property Support

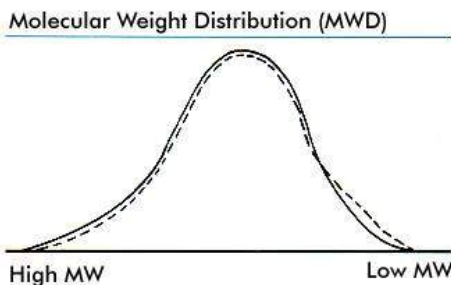

Our in-house laboratory includes a variety of instrumentation including DSC, GPC, GC, HPLC, IV. Upon project completion, our report includes detailed analysis and results, technical data, test method chosen and traceability of samples to analysis.

Thermal Analysis
